November report, 2023

As of November 30, 48 children with special needs were provided services in “Ada” day center, 46 children are still being provided the services. 6 children are from forcibly displaced families. The multidisciplinary team worked with 48 children, providing the services of a speech therapist, ergo therapist, kinesitherapist, psychologist, art therapist, and social worker. In November, 4 children were involved in the activities of “Ada” day center who are beneficiaries of Unified Social Service. Their families were also assessed. These children also receive services of a speech therapist, psychologist and special pedagogue. 24 children participated in group activities during art therapy courses. The staff of the center continues to be involved in the process of providing first aid to the displaced families. A 17-year-old girl from Artsakh with hearing impairment of the 4th degree was sponsored and provided with hairdressing accessories within the framework of AMD 82,000. On December 25, we'll present semi-annual report.
