October report, 2023

As of October 31, 51 children with special needs were provided services in “Ada” day center, 42 children are still being provided the services.

In October, the multidisciplinary team worked with 42 children, providing the services of a speech therapist, ergo therapist, kinesitherapist, psychologist, art therapist, and social worker.

15 children participated in various group meetings within the framework of art therapy.

1 child was sponsored and she was provided with appropriate supplies for painting in the framework of 30,000 AMD.

The staff of the center was involved in the activities of providing assistance to the forcibly displaced families from Artsakh.

We visited 91 forcibly displaced families and carried out a thorough needs assessment. The staff of the center has made needs evaluation and 5 children with special needs from displaced families started getting the special services.
