

# **SOAR 2020 Dental Report**

Covid restrictions prevented any visits to the SOAR Dental clinic during the months of April through August, but 344 patients were still seen during the 2020 year and as our Executive board member, Chuck Hajinian, a dentist himself, so eloquently stated:

*“344 people will not have a painful toothache. They will not lose any teeth and will have them to chew every day. Their food will be properly digested so they can get good nutrition and not have future stomach problems. They will feel good about smiling having all their teeth and will feel good about themselves. This is an investment in the future of these peoples' health.”*

## **Number of visits**

**January - 56**

**February - 67**

**March - 31**

**April – August – Covid restrictions prevented any visits**

**September - 30**

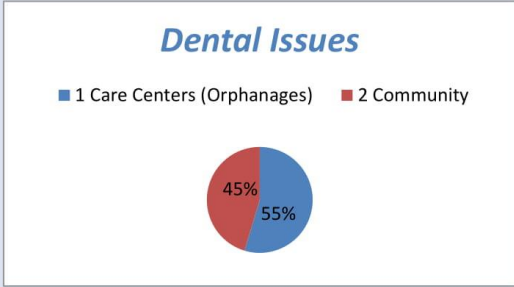

**October - 59**

**November - 46**

**December – 55**

**TOTAL visits for 2020 – 344**

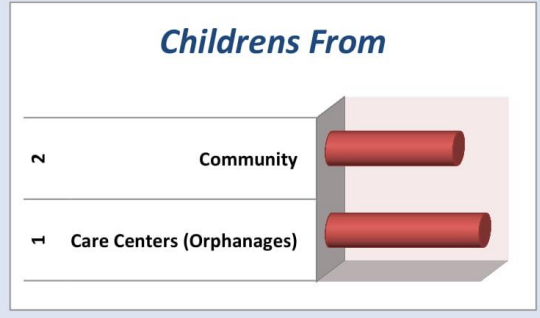

ALL PATIENTS IN 2020  344
